Getting to know New York City

New York City, also known as the Big Apple, is both a huge city and the name of the state where it is located. It is the most important city of the United States and the biggest port too, however it is not the capital city. There are five main boroughs, Manhattan, The Bronx, Queens, Brooklyn and Staten Island; and several islands in New York connected to the continent by many bridges, like the Brooklyn bridge and the Manhattan bridge or Williamsburg bridge. The most famous islands are probably Manhattan and Liberty Island where you can find the not less famous Statue of Liberty, offered by the French to the North American people as a symbol of freedom.

New York is very big, bigger than we can imagine. There are three airports: JFK, La Guardia and Newark, 200 bus routes, 12.000 taxis and ten subway lines. New York streets are also large and long, some of them are kms long and they are named with numbers, Broadway is the largest avenue in Manhattan. The most important avenue is 5th Avenue, famous for its luxury shops.

The center of New York is Manhattan and it is the economic and cultural area. The biggest and most famous park in New York is Central Park, in the center of Manhattan, where you can find a zoo, skating rinks, sports courts, two lakes and a pool.

New York is also well known for its museums, one of them is the Metropolitan Museum of Art being one of the largest in the world. The skyscrapers as big as your eyes can see, the most famous one is The Empire State Building with 102 floors. Broadway and its shows, cinemas, theaters and restaurants and the financial world.
